

# Top 10 Reasons

## To use CJWinter Attachments

### Thread Rolling Solutions

**Made in the USA**

CJWinter Thread Rolls!

**FAST!**

**2-DAY  
DELIVERY**

*The Fastest Deliveries  
in the Industry!*

**1-800-288-ROLL (7655)**

**1. EQUALIZED ROLLING PRESSURE:**

Allows thread rolling away from the collet and ensures thread concentricity. Also eliminates side pressure on parts and machine spindles and allows longer length to diameter rolling.

**2. FAST & EASY SET-UP:**

Out of the box and running in under 30 minutes. Includes a video installation guide, manual and phone tech support. Scheduled on-site assistance available.

**3. PITCH DIAMETER QUICKLY ADJUSTED:**

Make adjustments within .0002 inches (.005mm) without stopping.

**4. PATENTED ROLL COMPENSATOR:**

Simplifies roll timing, ensures perfect roll synchronization, eliminates flaking and allows roll timing adjustments in machine without disassembling gears.

**5. ONE CAM FOR ENTIRE SIZE RANGE:**

For each cam you don't have to keep in stock you can save hundreds of dollars!

**6. PENETRATION (ROLL FEED) RATE QUICKLY ADJUSTED:**

Adjust feed rate on the fly – no extended downtime.

**7. CHIP PURGE LINE:**

Keeps gear train free of chips – saves money on replacement gears and maintenance.

**8. QUALITY COMPONENTS:**

100% complete interchangeability on replacement parts, no time spent on retrofitting.

**9. SECONDARY THREADING:**

Save the cost of a new machine. Secondary threading turns an inexpensive lathe into an auxiliary thread rolling machine.

**10. CUSTOMER SERVICE:**

We offer on-line support, engineering support and scheduled on-site training. We guarantee complete customer satisfaction!

**10 Great Reasons, One Easy Number:

# CJWinter Thread Rolling Solutions

## The Industry Roll Model:

CJWinter® is the industry leader in thread rolling solutions for CNC, multi-spindle, Swiss, and Hydromat® applications. When you need durability, flexibility, and reliability ... we cover the full spectrum of your thread rolling needs.

As a leading manufacturer of precision thread rolls since 1956, we have extensive experience in the screw machine and turning industries. We provide a wide variety of thread rolls as well as innovative

solutions for thread rolling applications.

Whether you're ordering from our extensive in-stock inventory, or requesting custom-made materials, the thread rolls you get from CJWinter arrive quickly, perform at your exact specs, and last a long, long time.

## Tool Holders:

CJWinter provides a full-line of American-made slides and tool holders for CNC turning centers, Swiss, multi-spindle, and many other machines.

### Our Slides and Tool Holders Feature Innovative Design That Provides:

- Maximum life and reliability
- Maximum compatibility with multiple manufacturers
- Maximum usability from apprentice to journeyman

Get the high-quality product you expect from CJWinter with performance you can rely on. You just can't find a more versatile line of products that provide quick mounting, easy adjustment, and solid, hardened steel construction. Our tough products make CJWinter an easy choice.
